Were there any tasks today that I found too easy? Why? Could I have added my own challenge?	Did I make a good guess about how long each task would take?	Did I get stuck on a task?  Did I give up or try a different way?  What did I try?	Did I try going back to a tricky task later?  Did that make a difference?	Did I find it easy to stay on task today?  What helped?  What didn't help?	How can I make sure I remember what I learned?
